

Digital Bond's 4<sup>th</sup> Annual  
SCADA Security Scientific Symposium 2010  
January 20 – 21 in Miami, FL  
Call for Papers

Original papers on all technical aspects of SCADA and control system security are solicited for submission to the SCADA Security Scientific Symposium. This is a unique, highly technical conference for the control system security researcher and thought leaders. Papers must include significant original technical detail, and you will have time to present the detail to an audience that will understand. Submissions from research and academic institutions are also encouraged.

Some possible topics include vulnerability analysis of control system protocols, standards, devices and applications; methodologies and results of risk calculations; detecting and preventing attacks on control systems; performance impact of security on control systems; and whatever else a researcher can identify. Amaze us as researchers have in the past three S4 events with your innovative and brilliant research!!!

See the abstracts of the fantastic papers from S4 2007, 2008 and 2009 at:

<http://www.digitalbond.com/index.php/resources/s4-proceedings/>

### Writer Benefits

- One hour presentation at S4 before prestigious physical and virtual audience
- Paper published in the S4 Proceedings Book that is provided to all attendees and which will be available at digitalbond.com and amazon.com
- Up to 3 nights at the conference hotel, the beautiful [Le Meridien](#) right on the beach
- A \$400 stipend to help cover airfare and other travel expenses
- S4 registration fee waived (Fee for advanced training course on Jan 19 is not waived)
- Beautiful Miami Beach, Florida in January

### Submission Requirements

Submissions must include title, author(s), a short abstract, and summarize the new technical detail in the proposed paper. Final papers will be limited to 25 pages including references and appendices. If you would like to discuss a potential paper or know of a researcher or project you would recommend for S4 2010 send an email to [S4@digitalbond.com](mailto:S4@digitalbond.com). We hunt for the best papers.

Abstracts Submissions Due: Sept 15, 2009 (early submission improves odds of acceptance)

Acceptance Notification: October 1, 2009

Final Paper Due: December 1, 2009

Conference Dates: January 20 – 21, 2009 in Miami, FL

**Submit Abstracts To [S4@digitalbond.com](mailto:S4@digitalbond.com)**
